# **Where** NIPPON VALVE CONTROLS, INC.

SP-1379

# CMX type Electric Actuator Specifications

## FEATURE

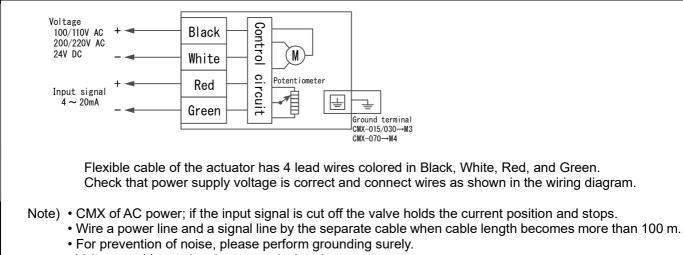

A lightweight and economical electric actuator for proportional control.

### SPECIFICATION

| SPECIFICATION                     | 1   | 1                  |  |                   |
|-----------------------------------|---|--------------------|--|-------------------|
| Actuator type<br>(□:Voltage code) | CMX-030-□   | CMX-070-□          | CMX-015-0                                      | CMX-070-0         |
| Voltage                           | 100 / 110 V AC ±10 % 50/60 Hz (Code: 1)   |                    | 24 V DC ±20 % (Code: 0)                        |                   |
| Ū.                                | 200 / 220 V AC ±10 %  | 50/60 Hz (Code: 2) | Cannot use a h                                 | nalf or full-wave |
|                                   |   |                    | power supply.                                  |                   |
| Rated torque [N·m]                | 3   | 7                  | 1.5  | 7                 |
| Operation time [s]                | 14.5 / 12 (50/60 Hz)  | 17 / 14 (50/60 Hz) | 14.5   | 17                |
| Power consumption [VA]            | 5.5   | 13                 | 3  | 6                 |
| Motor                             | Synchronous motor   |                    | Stepping motor                                 |                   |
| Overload protection               | Impedance protect   |                    |  |                   |
| Method of operation               | Proportional control  |                    |  |                   |
| Input signal                      | 4 to 20 mA (Voltage descent: less than 7 V)   |                    | 4 to 20 mA (Input resistance: 187.5 $\Omega$ ) |                   |
| Operation                         | [Mode A] SHUT by 4 mA ↔ OPEN by 20 mA (Standard)<br>[Mode B] SHUT by 20 mA ↔ OPEN by 4 mA (Option: J) |                    |  |                   |
| Resolution                        | Less than 0.4 %   |                    |  |                   |
| Dead band                         | About 1 %   |                    |  |                   |
| Duty cycle                        | 50 % 30 min   |                    |  |                   |
| Ambient temperature               | -10 to 50 °C  |                    |  |                   |
| Space heater                      | 0.2 W (CMX-070-2: 0.4 W)  |                    |  |                   |
| Manual operation                  | Direct operation (CMX-070: with clutch button)  |                    |  |                   |
| Enclosure                         | Equivalent to IP65 (IEC 60529)  |                    |  |                   |
| Housing material                  | Polycarbonate resin (Brack)   |                    |  |                   |
| Conduct port                      | Flexible cable 4 leads 0.5 mm <sup>2</sup> L=500 mm   |                    |  |                   |
| Ground terminal                   | Actuator mounting screw: M3 (CMX-070: M4)   |                    |  |                   |
|                                   |   |                    |  |                   |

#### WIRING

- Voltage and input signals are non-isolated.
- For manual operation on CMX-070, press the clutch button while operating it.
